Summary of Recommendations 2014-2015

presented to the North East and North West Local Health Integration Networks

Support and work with the communities of Timmins and Thunder Bay to meet the French language health care needs

Access Points

Review the process for allocating Francophone spaces in long-term care facilities

Include the **RMEFNO** in the implementation of Health Links

between the LHINs and the RMEFNO for the designation process

Develop a collaborative model

Promote the active offer of French language services

Identify and share of best practices in the active offer of French language services

Use new

approaches for

the collection of

pertinent data

LE RÉSEAU DU MIEUX-ÊTRE **FRANCOPHONE DU NORD DE L'ONTARIO**

Apply the Francophone lens during the integration process to ensure that quality French language services are maintained

Mental Health and

Addictions

Ensure that an active offer of French

language services is available for all

crisis line services

Provide training on cultural and linguistic competencies

Human Resources

Use of videoconferencing (OTN) to provide interpretation services and to increase access to services in French

Prevention and Promotion

Use of technology for French language programs on prevention and promotion

To consult the full version of the report : www.reseaudumieuxetre.ca

More access + **More equitable French** language services = A better health

Continue the

collaborative work

between the LHINs

and the RMEFNO

Use interactive maps to show data regarding French language services and the distribution of Francophones

Community Engagement and Service Planning

Promote the policy on the linguistic variable to ensure the Francophone lens is applied in the development of programs, policies, community engagement and funding requests

Follow-up on the priority issues identified during the LHINs-Entities-MOHLTC forum

Establish a joint LHINs/ **RMEFNO** board and management committee
