French Language Identification Tools

For Residents

"Je parle français" Name Tag Stickers

These stickers are a perfect way to identify Francophone residents. They are also a great way to identify the owner of certain items like canes, wheel chairs, walkers, or even books, eyeglass cases, etc.

"Je parle français" Stickers

These stickers are used on Francophone residents' doors or Francophone staff's desks, doors or name plates to identify them. This benefits both staff and residents to receive and give culturally appropriate care.

For Staff

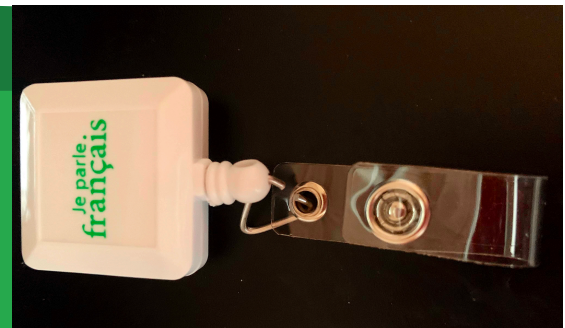

"Je parle français" Stethoscope Clip

These clips allow for the identification of health care staff. They can be used on stethoscopes but may have other uses on different tools or uniforms.

"Je parle français" Retractable Badge Holder

These lanyards are a perfect way to identify francophone staff while also being practical and staying organized.
